

Sandya Kandregula

DevOps/Devsecops Engineer

INDIA • +918919382187 • sandya.kandregula.dev@gmail.com

Summary

Senior DevOps/DevSecops Engineer with 12+ years of experience building and managing scalable, highly available cloud infrastructure and CI/CD pipelines. Expertise in Linux, Python, Docker, Kubernetes, and Infrastructure as Code, with a strong focus on automation, reliability, and security. Proven experience optimizing AWS and GCP environments for performance, cost, and operational efficiency. AWS and GCP Certified DevOps Professional.

- Designed and maintained CI/CD pipelines using Git and GitHub, integrating security tools, and enabling containerized deployments with Docker, Kubernetes, Helm, and ArgoCD.
- Created CI/CD pipelines using Git, GitHub, TeamCity, and Octopus Deploy, integrating Mulesoft Anypoint Platform and New Relic to enhance deployment efficiency and observability.
- Built end-to-end CI/CD pipelines using Azure DevOps, automating build and containerization workflows, pushing Docker images to AWS ECR, and deploying applications to Kubernetes (EKS) for scalable and reliable releases.
- Integrated DevSecOps into CI/CD pipelines by implementing automated SAST/DAST security scanning (SonarQube, Aqua, CodeQL), enforcing IAM and Terraform governance policies, and enabling proactive monitoring and alerting (LogicMonitor, New Relic, Opsgenie) to ensure system security and reliability.
- Migrated on-premises virtual machines to AWS using Rehost(Lift & Shift) Strategy with AWS VM Import/Export by converting VMs into OVA/VMDK formats and uploading to Amazon S3. Configured AWS CLI and IAM roles (vmimport) to securely perform image imports. Automated the import process using EC2 import-image and monitored progress via CLI. Successfully created AMIs and launched EC2 instances, enabling seamless cloud migration and scalability.
- Executed cross-cloud migration of applications from GCP and Azure to AWS using rehost and retain strategies, ensuring application stability, minimal disruption, and efficient resource optimization.
- Led migration of repositories across GitHub Enterprise and GitHub Cloud, implementing security controls, access governance, and providing ongoing support and maintenance.
- Evaluated patching processes, identified gaps, implemented improvements, documented current and future-state workflows, and provided continuous support to ensure security and operational stability.
- Implemented DevSecOps practices using Gitleaks for repository scanning, Qualys for server vulnerability scanning, and HashiCorp Vault for secure secrets management.
- Built Python automation to capture GitHub repository settings, export data into Excel reports, and upload to S3, enabling reliable comparison of configurations before and after migrations.

Experience

Tech Lead, Apr 2025 - Apr 2026

Wipro Limited, Vizag

- Managed **GCP infrastructure**, including OS patching using Chef and Terraform, leveraging vulnerability tools (Signals of Security)
- Built and maintained **CI/CD pipelines (GitHub Actions, Jenkins)** for reliable deployments
- Led **multi-cloud migrations (AWS, GCP, Azure)** using rehost/retain with automated provisioning (Terraform, Chef)
- Implemented **DevSecOps practices** using SonarQube, CodeQL, and Aqua

- Deployed **containerized applications (Docker, GKE, Helm, ArgoCD)** with strong monitoring and incident management

Assistant Manager (DevOps), Mar 2024 - Apr 2025

Genpact India Private Limited, Bellandur, Bangalore

Project: CI/CD & Kubernetes Deployment Platform

- Designed and implemented **CI/CD pipelines using GitHub and Jenkins**, automating build and deployment workflows
- Containerized applications using **Docker** and deployed to **Kubernetes**, managing scaling and rollout strategies
- Implemented **GitOps deployments using ArgoCD** and managed releases using **Helm charts**
- Integrated **LogicMonitor** for monitoring and alerting, improving system visibility and reliability

Sr Software Engineer, Dec 2021 - Feb 2024

Enqeuro Global LLP Genpact company , Koramangala, Bangalore

- Built and managed a **microservices-based platform on AWS**, handling infrastructure and application deployments. Provisioned and managed AWS resources using Infrastructure as Code, and supported application integrations using **Mulesoft Anypoint Platform**. Automated tasks and scripting using **Python** to improve operational efficiency.
- Designed and implemented **CI/CD pipelines using Git, GitHub, TeamCity, and Octopus Deploy**, enabling automated build, code quality checks using **SonarQube**, and streamlined application deployments. Managed version control, branching strategies, and release workflows across environments.
- Monitored applications and system performance using **New Relic**, and provided production support by resolving deployment failures and infrastructure issues. This implementation improved deployment efficiency, code quality, and overall system reliability.

AWS DevOps Engineer, Feb 2018 - Dec 2021

Zevjet Technologies Infotech Pvt Ltd, Madhapur, Hyderabad

- Built and managed **CI/CD workflows using GitHub Actions (CI) and Jenkins (CD)** on AWS, enabling automated build, testing, and deployment processes. Integrated **code quality and security tools (CodeQL, Aqua)** to ensure secure and compliant code deployments.
- Led **GitHub repository migrations across GitHub Enterprise and GitHub Cloud**, ensuring secure transitions with proper access controls and configuration consistency. Developed **Python-based automation** to support migration activities, including configuration validation and data handling.
- Managed application deployments on AWS and provided **ongoing production support**, resolving pipeline failures, deployment issues, and infrastructure challenges. This implementation improved deployment efficiency, strengthened security practices, and ensured smooth migration and operational stability.

Technical Support Engineer, Jun 2016 - Nov 2017

PKL Limited, Hyderabad, Telangana

- Migrated existing AWS infrastructure from **resource-level Terraform code to a modular architecture**, analyzing current configurations and identifying reusable components such as VPC, IAM, EC2, and EKS

- Designed and implemented **reusable Terraform modules**, restructuring codebase using separate modules and environment-specific variables (tfvars) to enable consistency, scalability, and multi-environment deployments
- Refactored and deployed infrastructure using the new modular approach, reducing code duplication, improving maintainability, and enabling faster and standardized provisioning across environments

Software Developer, Jan 2014 - Jan 2016

Kaivale Technologies, Bangalore, Karnataka

- Built and managed **AWS infrastructure**, implementing IAM policies and secure networking (VPC, ACLs)
- Developed **CI/CD pipelines (Jenkins, Maven, Nexus, Ansible)** and migrated build systems from ANT to Maven
- Automated **infrastructure provisioning using Chef and scripting**, improving environment setup speed
- Implemented **code quality practices using SonarQube** and scaled CI processes across teams
- Supported **application deployments and platform stability** through cross-team collaboration

Education

B.Tech, Mechanical Engineering, 2009 - 2013

Shri Vishnu Engineering College For Women (Autonomous), Bhimavaram

Skills

- | | |
|---|---|
| • AWS, GCP, AZURE | • MLOps, Gen AI, Vertex AI, Streamlit, FastAPI |
| • Docker, ArgoCD, Kubernetes, Helm | • Mulesoft Anypoint Studio |
| • Terraform, Ansible, Chef, Maven, Ant, MS Build | • Jenkins, Teamcity, Octopus Deploy, GitHub Actions |
| • Groovy, Python, Json, Shell, Bash, Yml | • Jira, Service Now |
| • Linux, Rhel, Windows | • Git, Github, Bitbucket, GitLab |
| • Gitleaks, Sonar, CodeQL, Aqua, Snyk | • Trivy, Checkov, Falco, Opsgenie |
| • LogicMonitoring, New Relic, Grafana, Prometheus | • AWS MGN, VM Import/Export |
| • G | |

Certifications and Licenses

AWS Certified DevOps Engineer – Professional,
Professional Cloud DevOps Engineer Certification,
Google Cloud Certified - Generative AI Leader,
AWS Certified Developer – Associate.

Achievements

Received T20 Award (2022,2023,2024): Recognized for exceptional performance and contributions, ranking among the top 20 employees. Received Second place in Heckerthon conducted in Genpact on E commerce business sales Increase.
